## 1.0 General Overview

For any questions or issues not resolved in this provider manual, please email [SHParmacyContracting@selecthealth.org](mailto:SHParmacyContracting@selecthealth.org).

This pharmacy provider manual has been developed by Select Health/Scripius to assist network pharmacies in all aspects of providing pharmacy services to covered members. Periodically, this manual will be updated with new or modified information. To ensure accuracy and usability of this manual, please incorporate the revised information as instructed. This manual has been assembled to provide administrative information only and is not meant to supersede any local or federal regulations.

Select Health/Scripius administers a variety of plans including Commercial, Small Employer, Individual, Medicaid, Medicare, and other Government sponsored plans. The Select Health pharmacy network is comprised of nationally contracted chain and independent pharmacies located in all 50 states. Covered members with Select Health prescription drug coverage must have their prescriptions filled at a participating pharmacy to obtain the maximum benefit. Covered members traveling outside their local service area must also use a participating pharmacy to obtain the maximum benefit. Pharmacies participating in the Select Health pharmacy network are eligible to fill prescriptions for Select Health plans and/or lines of business identified in the pharmacy network agreement, unless participation is restricted by the plan. For some plans, the prescriber writing the prescription must be participating in the plan.

### 1.1 CONFIDENTIALITY STATEMENT

The information included in this provider manual is considered confidential and proprietary to Select Health and provided for business purposes only. Provider is not authorized to copy, reproduce, distribute, or otherwise share the information contained in the manual except as authorized by the pharmacy network agreement.

### 1.2 PHARMACY REQUIREMENTS

Select Health has established service, credentialing, and operational standards for participating pharmacies to ensure delivery of quality service to all covered members.

#### **Patient service standards include that pharmacies/pharmacists will:**

- Maintain patient profiles for prescription medication dispensed.
- Not destroy any patient record produced, unless prior written consent is obtained from Select Health, for a period of at least five (5) years.
- React appropriately to online edits, which may affect the patient's medical status or coverage.
- Provide instruction to the patient on the use of medication, including information based on the online drug messages, before dispensing of each prescription, according to state and federal law.
- Provide all drug products covered by the benefit plans, including products normally stocked and those that require special order, if possible.
- Have established formal prescription quality assurance and error prevention measures.
- Have a formal process for handling prescription errors.

**Provider credentialing standards include that the pharmacy will:**

- Carry a valid pharmacy operating license.
- Maintain valid professional liability and general liability insurance for the pharmacy in the amounts of \$1,000,000 per occurrence and \$3,000,000 aggregate coverage.
- Maintain a valid DEA registration.
- Cooperate with Select Health pharmacy auditors and recovery of any overages identified as a result of an audit.
- Maintain a current/valid State Board of Pharmacy License that contains no restrictions (established procedures for verification of pharmacist licensure will be in place).

**Contact the Pharmacy Help Desk** for items such as the following:

- Claims Processing
- Prior Authorization Requests
- Assistance with Reject Messages (see [Section 8.0](#))

## 2.0 Contact Information

### 2.1 SELECT HEALTH PHARMACY HELP DESK

24 hours a day,  
7 days a week

Contact the Help Desk for:

- Network and Contract Issues/Questions
- Claims Investigation
- Provider Remittance Statements
- Payment Issues/Questions
- General Questions

#### Help Desk Phone Numbers:

- Select Health Commercial  
Scripius PBM Products  
Select Health Community Care®  
(Utah State Medicaid)  
— Toll Free: **800-442-9988**  
— Fax: **801-442-3006**
- Select Health Medicare®  
(Medicare Part D):  
— Toll Free: **855-442-9988**  
— Fax: **801-442-0413**

### 2.2 PRIOR AUTHORIZATION REQUESTS

Electronic prior authorization requests can be submitted using most electronic medical record platforms, or via <https://selecthealth.org/pa>.

### 2.3 SELECT HEALTH MEMBER SERVICES

Monday through Friday,  
7:00 a.m.–9:00 p.m.  
(MST)

Saturday, 9:00 a.m.–  
3:00 p.m. (MST)

Closed Sunday

Contact the relevant Member Services line listed below for eligibility verification or member-specific questions about benefit coverage:

- Select Health Commercial Products  
— Toll Free: **800-538-5038**  
— Fax: **801-650-3279**
- Select Health/Scripius PBM Products  
— Toll Free: **800-442-3127**  
— Fax: **801-442-3006**
- Select Health Medicare  
(Medicare Part D)  
— Toll Free: **855-442-9900**  
— Fax: **801-650-3170**
- Select Health Community Care  
(Medicaid)  
— Toll Free: **855-442-9900**  
— Fax: **866-811-4997**

### 2.4 SELECT HEALTH ADDRESSES

**Physical Address:** 5381 Green Street, Murray, UT 84123

#### Claims Mailing Addresses:

- Commercial, Scripius PBM, and  
Select Health Community Care (Medicaid)  
— PO Box 30192  
— Salt Lake City, UT 84130
- Select Health Medicare  
(Medicare Part D)  
— PO Box 30196  
— Salt Lake City, UT 84130

## 3.0 General Claims Processing Information

### 3.1 ONLINE PROCESSING INFORMATION

See Appendix: Payer Sheet beginning on [page 29](#) for additional processing instructions and requirements.

- Select Health Commercial and Scripius PBM Products
  - BIN – 800008
  - PCN – **not required**
  - Group – **not required**
- Select Health Medicare (Medicare Part D)
  - BIN – 015938
  - PCN – 7463
  - Group – UT/ID/CO = U1000009; NV Intermountain = U1000011
- Select Health Community Care (Utah State Medicaid)
  - BIN – 800008
  - PCN – 606
  - Group – **not required**

The pharmacy must submit all prescription claims online to Select Health using the most current version of the NCPDP telecommunications standard. Tape billing will not be accepted or paid. The pharmacy must submit prescription claims within 90 days of the fill date. The pharmacy is required to bill the most cost-effective package size.

Each individual claim will be processed as received by Select Health. Extensive edit checks are made to ensure proper claims adjudication. Claims submitted containing one or more errors will be rejected.

The pharmacy shall not submit claims for payment for prescriptions filled, but not dispensed to a covered member. Non-compliance with this contractual provision will be grounds for termination of the Prescription Drug and Pharmacy Services Agreement and/or adjustment of payment on these claims.

### 3.2 SELECT HEALTH ID CARDS

Select Health maintains a guide with [sample ID cards](#) on their website. The primary cardholder of Select Health will receive an ID card that will provide the cardholder's identification number and copayment information.

The identification number will appear as follows: 8000000000 (example).

### 3.3 MEMBER IDENTIFICATION NUMBER

#### Select Health Community Care Identification Numbers

Individuals enrolled in Select Health Community Care will be issued a Select Health identification number upon enrollment. The Utah Department of Health will continue to issue Medicaid identification cards. Pharmacies should request both the Select Health and Medicaid cards when dispensing medication.

Select Health Community Care claims can be submitted for processing using either the Select Health or Medicaid identification number.

### 3.4 DEPENDENT COVERAGE

Dependent coverage may include a spouse and/or children. Covered family members are identified by the following relationship codes:

0 – Not Specified	5 – Student
1 – Cardholder	6 – Disabled Dependent
2 – Spouse	7 – Adult Dependent
3 – Child	8 – Significant Other
4 – Other	

**NOTE:** Use of the correct relationship code is important. Prescription claims must be submitted to Select Health only for the eligible member for whom the prescription is written by the prescriber. This requirement has added significance in that DUR reviews are based on claims submitted for the correct eligible member.

### 3.5 ELIGIBILITY VERIFICATION

The pharmacy agrees to use an online point-of-sale (POS) authorization terminal or host-to-host online link with the Select Health system for verifying eligibility of covered members. The cardholder's identification number for POS entry should be obtained from their ID card. These cards are used for identification purpose only and are not a guarantee of coverage.

If eligibility cannot be verified using the above method, the pharmacy should call the Select Health Pharmacy Help Desk for verification of eligibility using the telephone number listed on the identification card. Select Health will advise the pharmacy if the patient is eligible.

Select Health Community Care members must use a participating pharmacy of Utah Medicaid and Select Health Community Care to obtain benefits.

Members not using a participating pharmacy must pay in full for their prescription(s) and seek reimbursement from Select Health.

Members will be reimbursed the discounted amount that the plan would have had to pay to a participating pharmacy for the prescription(s), less the copayment. For Medicare, Select Health Medicare will only cover up to a 30-day supply at an out-of-network pharmacy. The member will be reimbursed for Part D medications covered on the plan's Drug List (formulary) that were not paid for with assistance from a discount or coupon card.

### 3.6 COORDINATION OF BENEFITS (COB)

Most Select Health plans allow for coordination of benefits (COB) with a member's primary carrier. If a member has an additional prescription benefit plan, the pharmacy should submit the claim to the appropriate payer in accordance with any coordination of benefits requirements. The pharmacy should submit the primary claim to the member's primary payer for adjudication. In some instances, the secondary claim can be electronically submitted to Select Health for adjudication. The member may

### 3.7 PRESCRIPTION COSTS AND REIMBURSEMENT

seek reimbursement from Select Health for any secondary claims not processed electronically.

#### **Secondary Claim Submission (Select Health Community Care)**

Pharmacies must explore payment from all other liable parties such as insurance coverage, including a health plan, before seeking Medicaid payment. Before submitting a secondary claim to Select Health Community Care, collect only the applicable Medicaid copayment usually charged at the time of service. Refer to [Utah Medicaid Provider Manual, Section 1, Chapter 11.4](#) for additional instruction regarding coordination with other liable parties.

#### **Member Financial Responsibility**

When a person presents a Select Health ID card to the pharmacy, the ID card may advise of the copayment amount to be collected. Since the pharmacy is submitting the claim via the point-of-sale system, the electronic response to the pharmacy will include a detailed description of the member's financial responsibility.

If the member is questioning the calculated copay or coinsurance amounts returned on the transaction, remind the member that the copay is determined by many factors. The following is a non-inclusive list of items that may affect the copayment or coinsurance being returned:

- Brand vs. Generic Drug
- Quantity Dispensed
- Day Supply Dispensed
- Member Deductible

If a review of the above items still leaves questions for the member regarding their calculated copay, direct the member to contact the Select Health Member Services line for assistance.

#### **Prohibition on Billing Patients**

Participating pharmacies of Select Health/Scripius are prohibited to collect payment from members, for covered services, that exceeds the copay or coinsurance amount returned via the point-of-sale system. This includes, but is not limited to, any amount less than the pharmacy's acquisition cost, any additional cost incurred when a specific brand or manufacturer is requested by the member, additional fees for services included in the dispensing of the drug (i.e. additional compounding fees), etc.

Participating pharmacies of Utah Medicaid and Select Health Community Care are only allowed to collect payment from Medicaid enrollees for non-covered services when certain circumstances are met. The specific policy is described in the Utah Medicaid provider manual. See the [Utah Medicaid Provider Manual, Section 4](#).

### Reimbursement Rate Questions

If the pharmacy has questions regarding the reimbursement rate for a particular medication, they are welcome to contact the Select Health Pharmacy Help Desk for assistance. Additionally, the pharmacy can review the following items that can directly affect the reimbursement rate to ensure the transaction was submitted correctly:

- Quantity Submitted: Confirm that the metric quantity of the prescription was submitted correctly.
- Day Supply: Confirm that the day supply of the prescription was submitted correctly.
- DAW Code: Confirm that the submitted DAW code accurately reflects the situation.

After evaluating the above fields, if all appears to be accurate, call the Select Health Pharmacy Help Desk for further assistance.

### 3.8 SIGNATURE LOG

The pharmacy will maintain an approved daily signature log which contains a disclaimer verifying the member has received the prescription and authorizes the release of all prescriptions and related information to Select Health. The pharmacy will also require the member or the representative who receives the service to sign for all prescriptions dispensed.

### 3.9 E-PRESCRIBING

Electronic prescribing (e-prescribing) is the transmission, using electronic media, of prescription or prescription-related information between a prescriber, dispensing pharmacy, pharmacy benefit manager, or health plan, either directly or through an intermediary. E-prescribing should improve quality, safety, efficiency, and consumer convenience.

Pharmacies must submit the Origin Code on the transaction, in accordance with the Payer Sheet included in this Provider Manual, to indicate how the prescription was obtained by the pharmacy.

To qualify as an electronic prescription, the electronic prescription must be noted prior to dispensing, and must clearly record, in a manner that cannot be altered, the system-assigned user and date and time stamp to take the place of hard copy documentation. For auditing purposes, the following data elements should be present on an electronic prescription as authentication of electronic signatures:

- Electronic Transaction Identifier
- Prescriber Identifier(s)
- Written Date/Time
- Designated Agent (if applicable)

Pharmacies may only dispense federally Controlled Substances based on a written or electronic prescription that complies with all applicable laws and regulations for prescribing and dispensing Controlled Substances.

## 4.0 Dispensing Edits

### 4.1 QUANTITY AND DAY SUPPLY LIMITS

This section contains information on some of the more common edits applied to the Select Health plans.

#### **Select Health Commercial, Scripius PBM Products, and Select Health Community Care (Utah State Medicaid)**

The following quantity limits will be applied to all transactions processed to Select Health:

- Maximum thirty-four (34)-day supply of tablets, capsules, and liquids to be taken orally.
- Maximum one (1) vial containing no more than fifteen (15) milliliters of any otic or ophthalmic product; if only manufactured in package sizes greater than fifteen (15) milliliters, the smallest package size available from the manufacturer is mandated. One copay will be charged per vial.
- Some products may be limited to an approved quantity per each acute treatment period.

Unless otherwise specified, one copayment will apply for each item dispensed within the limit. There are instances in which exceptions can be made.

Except for Select Health Community Care (Medicaid), most Select Health plans offer a ninety (90)-day supply benefit for maintenance medications, if the member and medication meet specific qualifications. The necessary qualifications include that the medication must be approved on the formulary, and the member must have filled the prescription, at the same strength, at least once within the past 180 days. If the pharmacy has questions regarding eligibility or if a rejection is received when the claim is processed, please contact the Pharmacy Help Desk for assistance.

#### **Select Health Medicare (Medicare Part D)**

For certain drugs, the Medicare plan may limit the amount of a prescription a member can receive (maximum number of tablets or capsules, etc. per prescription). Asking for an exception may allow for greater quantity dispensed when a medication exceeds the plan limits.

### 4.2 REFILLS

The following refill edits will be applied to all transactions processed to Select Health:

- Prescriptions cannot be refilled beyond twelve (12) months from the date on which the prescription was written. After the 12 months have lapsed, a new prescription with a new prescription number must be assigned.
- Prescriptions should not be refilled more times than the number specified by the prescriber.
- Additional refills authorized by the prescriber must be documented on the hard copy of the prescription or a new prescription number must be assigned with the refills indicated.

- Changes in dosage or an increase in quantity assigned by the prescriber must be documented on the hard copy prescription or a new prescription number must be assigned with these changes documented.

Pharmacies that do not comply with the above dispensing limitations may be subject to review by the Select Health Pharmacy auditors or designated vendor.

### 4.3 DAW CODES

The pharmacy is required to bill the correct Dispense as Written (DAW) code corresponding to the prescription. Valid DAW codes are as follows:

DAW Code	Code Description
0	No product selection indicated
1	Substitution not allowed by prescriber
2	Substitution allowed – patient requested product dispensed
3	Substitution allowed – pharmacist selected product dispensed
4	Substitution allowed – generic drug not in stock
5	Substitution allowed – brand drug dispensed as generic
6	Override
7	Substitution not allowed – brand drug mandated by law
8	Substitution allowed – generic drug not available in marketplace
9	Other – not a valid code for Select Health

### 4.4 COMPOUND PRESCRIPTIONS

**NOTE:** Compounds are not covered for all plans or lines of business.

Compounded prescriptions must be prepared following good compounding practices as defined by the United States Pharmacopoeia (USP DI-Volume III: Approved Drug Products and Legal Requirements). The pharmacy will follow USP good compounding practices concerning the following:

- Facility space and equipment
- Source ingredient selection and calculations
- Stability, sterility, and beyond-use dating
- Formulation and checklist for acceptable strength, quality, and purity
- Compounding log and quality control

Formulation records, compounding logs, and quality control records may be subject to review by the Select Health Pharmacy Auditors or designated vendor. Claim dollars for compounded prescriptions found not following good compounding practices will be subject to adjustment.

All active ingredients in a compounded prescription must be FDA-approved for human use and must be covered under the member's plan. The Select Health Pharmacy Help Desk is available to assist in determining a member's coverage. Dispensing quantity limitations apply to all covered compounded prescriptions (see "Quantity Dispensed" section).

In accordance with NCPDP version D.0 as mandated by HIPAA 5010, Select Health processes multi-ingredient compounds. Each NDC should be included in the compound segment of the transaction. Refer to the Select Health payer sheet in appendix A for additional requirements. Compounded prescriptions where the reimbursement due to the pharmacy exceeds \$75.00 will require a review from the Select Health Pharmacy Help Desk and an official prior authorization request may be required.

### **Non-Covered Ingredients**

The cost of non-covered ingredients may not be billed or collected from an enrollee of a Select Health plan when there are covered ingredients of the compound.

## 5.0 Appeals and Grievances

### 5.1 MEMBER APPEALS AND GRIEVANCES

#### Select Health Commercial, Select Health/Scripius PBM Products, and Select Health Community Care (Utah State Medicaid)

Please direct all appeals or grievances on behalf of a member, to the Select Health Member Appeals department, by phone or in writing to:

Select Health  
Attn: Member Appeals Department  
P.O. Box 30192  
Salt Lake City, UT 84130  
Phone: **844-208-9012**  
Fax: **801-442-0762**  
Email: [appeals@imail.org](mailto:appeals@imail.org)

#### Select Health Medicare (Medicare Part D)

A grievance is an escalated complaint from a Medicare member regarding a specific issue as it relates to the service they received. For example, an official grievance is not filed over specific formulary rules or plan costs, but rather would be related to the timeliness of filling a prescription or if the member received other poor service. Members are welcome to contact Select Health through the Medicare Member Services line, fax line, or through U.S. mail.

### 5.2 MAC PRICING RESEARCH REQUESTS

Pharmacies who disagree with the MAC pricing on a claim may submit a MAC Pricing Research Request (dispute) through Select Health's online tool available at [selecthealth.org/pharmacy/resources](https://selecthealth.org/pharmacy/resources).

Requests must be received within 21 days of initial adjudication. Additionally, an invoice dated within 30 days of the claim's date of service, showing the pharmacy's acquisition cost, must be provided. Requests outside of these parameters or sent via email will not be accepted.

### 5.3 PHARMACY APPEALS

For any escalated questions or issues not resolved in this provider manual, pharmacies may email concerns to [SHPharmacyContracting@selecthealth.org](mailto:SHPharmacyContracting@selecthealth.org).

## 6.0 Audit Information

Select Health or designated vendor regularly monitors and audits pharmacy claims. Part of this process is accomplished by the pharmacy providing access at reasonable times upon request by either Select Health or their designee or any governmental regulatory agency to inspect the facilities, equipment, books, and records of the pharmacy. This includes, but is not limited to, member records and all prescription dispensing records. A notice will be sent to the pharmacy location that has filled the prescription(s) in question. A description of the issue under review will be included, along with specific claim-related information.

The pharmacy is given thirty (30) days from the date of the letter to respond, depending on the scope of the audit. If a response is not received within this period, this will be interpreted as non-compliance and the pharmacy is subject to adjustment of the paid dollars on those claims.

Additionally, when billing discrepancies are identified by Select Health and are disclosed to the pharmacy, the pharmacy is given thirty (30) days to review/dispute the findings. If a response is not received within this time, this will be interpreted as consent to the finding and the adjustments will be reflected on the pharmacy's next remittance cycle.

When necessary, extensions will be granted if the pharmacy contacts Select Health within the specified time.

## 7.0 Formulary Information

### 7.1 SELECT HEALTH COMMERCIAL AND SCRIPUS PBM PRODUCTS

**NOTE:** Compounds are not covered for all plans or lines of business.

#### Covered Medications and Services

Covered prescription drugs and pharmacy services include most medications which require a prescription by state or federal law when prescribed by a physician and listed on the Select Health drug formulary. Among other medications, this includes the following:

- Injectable insulin and insulin syringes when written on a prescription
- Compounded medications that are prepared following good compounding practices as defined by the United States Pharmacopoeia (USP DI-Volume III: Approved Drug Products and Legal Requirements). (see "Compound Prescriptions" section)
- Oral contraceptives (plan specific)
- Blood glucose test strips
- Flu vaccine

#### Covered Injectable and Specialty Medications

Most Select Health plans have specialty benefits incorporated in the benefit structure. This allows pharmacies to bill covered injectable drugs and specialty medications through the pharmacy benefit. Some injectable drugs may be covered under other tiers of the pharmacy benefit when not classified as a specialty injectable medication according to Select Health formularies.

For questions on coverage of specific injectable and specialty medications, the pharmacy may contact the Select Health Pharmacy Help Desk for assistance.

#### Generally Excluded Medications and Services

Most prescription drugs for covered medical conditions are covered by the prescription drug benefit. However, unless noted otherwise in plan documents or preauthorized as an exception by the plan, the following drugs are not covered under the prescription drug benefit but may be covered elsewhere under the medical benefit:

- Certain drugs with a therapeutic over-the-counter (OTC) equivalent
- Drugs purchased from Out-of-Network Providers over the Internet
- Flu symptom drugs, except when approved by an expert panel of Physicians and Select Health
- Non-Sedating Antihistamines
- Prescription drugs used to inhibit and/or suppress drowsiness, sleepiness, tiredness, or exhaustion
- Replacement of lost, stolen, or damaged drugs
- Sexual dysfunction drugs

- Travel-related medications, including preventive medication for the purpose of travel to other countries
- All non-prescription contraceptive jellies, ointments, foams, and/or devices, such as IUDs
- Appetite suppressants and weight loss medications
- Certain off-label drug usage, unless the use has been approved by a Select Health Medical Director or clinical pharmacist
- Compound drugs when alternative products are available commercially
- Cosmetic agents, health or beauty aids, or prescriptions used for cosmetic purposes, including minoxidil for hair growth
- DMSO (dimethyl sulfoxide)
- Drugs not meeting the minimum levels of evidence based upon Food and Drug Administration (FDA) approval, the drug has no active ingredient and/or clinically relevant studies as determined by Select Health
- Drugs or medicines purchased and received prior to the member's effective date of coverage or after the member's termination of coverage
- Food supplements, food substitutes, medical foods, and formulas
- Human growth hormone
- Infertility medications or drugs used for infertility purposes
- Medication not requiring a prescription, even if ordered by a participating provider by means of a prescription, and drugs that are not medically necessary or that are used inappropriately
- Medication which may be properly received without charge under local, state, or federal programs or which are reimbursable under other insurance, including Worker's Compensation
- Pharmacy & Therapeutics Committee, nationally recognized compendium sources currently utilized by Select Health, National Comprehensive Cancer Network (NCCN), or as defined within Select Health's Preauthorization criteria or medical policy
- Minerals, fluoride, and vitamins other than prenatal or when determined to be Medically Necessary to treat a specifically diagnosed disease
- Non-prescription vitamins
- Over-the-counter (OTC) medications, except when **all of the following** conditions are met:
  - The OTC medication is listed on the Select Health formulary as a covered medication.
  - The Select Health Pharmacy & Therapeutics Committee has approved the OTC medication as a medically appropriate substitution of a prescription drug or medication.
  - The member has obtained a prescription for the OTC medication from a licensed provider and filled the prescription at a participating pharmacy.

## 7.2 SELECT HEALTH MEDICARE (MEDICARE PART D)

- Prescriptions written by a licensed dentist, unless for the prevention of infection or pain in conjunction with a dental procedure.
- Progesterone powder (micronized progesterone), except when prior authorized during pregnancy or other FDA-approved use.
- Therapeutic devices or appliances including hypodermic needles, syringes, support garments, and other non-medicinal substances (except insulin syringes, glucose test strips, and inhaler extensions).

### Covered Medications and Services

The Select Health formulary for the Medicare Advantage plan has five tiers with coverage of most Part D generic drugs and most Part D brand drugs.

Any injectable medication considered part of the Medicare Part D benefit will be eligible for processing under the member's pharmacy benefit, even if the service is submitted under the medical benefit.

### Generally Excluded Part D Medications

Non-Part D drugs, including prescription drugs covered by Part A or Part B and other drugs excluded from coverage by Medicare.

### Diabetic Supplies

Lancets and Test Strips, through part of the Medicare Part B benefit, will be allowed to process at the pharmacy through the POS.

### Step Therapy

Select Health Medicare requires Step Therapy for certain drugs. This means that certain drugs are covered by the Medicare plan only after the member has tried the alternative therapy without success.

### Exceptions and Coverage Determinations

At any time, a member may request a coverage determination or an exception to a prior authorization requirement or other edit imposed by the Medicare Part D plan. The individual member, member's representative, or the prescribing physician or other prescriber may initiate the exception request. Common reasons for requesting coverage determination or an exception are:

- For coverage of a drug that requires prior authorization
- For coverage of a drug that is not covered on the plan's formulary
- To bypass step therapy or quantity limit restrictions
- To cover a drug at a lower tier

### 7.3 SELECT HEALTH COMMUNITY CARE (MEDICAID)

If an exception is approved, it will generally be honored for the remainder of the plan year with no requirement to initiate another coverage determination each time the medication is being filled.

There is no guarantee that a request for exception will be granted. Each request will be evaluated individually based on the situation at hand.

#### **Part B and Part D Benefit Overlap**

Drugs that are eligible under a member's Medicare Part B benefit are not eligible for coverage under the Part D benefit. The determination for under which benefit a drug will be covered is not just determined by the drug itself, but also its indication and administration. Medicare Part B covers a limited list of specific drugs including injectable and infusible drugs that are not usually self-administered. Edits will be applied in the Select Health system to manage these rules at adjudication.

#### **Exceptions to Plan Coverage**

Exceptions to Select Health Medicare Plan coverage include any pharmacy claims processed from a foreign pharmacy. Claims processed at pharmacies outside the United States will not be paid through the Select Health Medicare Advantage program.

The Select Health Community Care plan generally covers all medications included on the Prescription Drug Formulary for Traditional and Non-Traditional enrollees.

There are some drugs that will continue to be covered by the State Medicaid agency. Coverage and applicable costs are not decided by Select Health Community Care. Therapeutic classes carved out include:

- Attention deficit hyperactivity disorder (ADHD)
- Antidepressant
- Anti-anxiety
- Anticonvulsant
- Antipsychotic
- Hemophilia factor
- Immunosuppressive
- Substance abuse (opioid or alcohol)

Medical necessity is evaluated for services typically not covered for children and pregnant women.

**General exclusions include these services:**

- Duplicate prescription for lost, stolen, destroyed, spilled, or otherwise non-usable medication with some exceptions
- Compounded prescriptions
- Lozenges, suckers, rapid dissolve, lollipop, pellets, patches, or other unique formulation delivery methodologies developed to garner “uniqueness,” except where the specific medication is unavailable in any other form
- Specific excluded drug classes:
  - Cosmetic preparations
  - Minerals
  - Patches
  - Weight gain or loss
  - Vitamins, except when provided for:
    - **Pregnant women:** prenatal vitamins with folic acid (prenatal vitamins are not covered post-delivery)
    - **Children through age five:** children's vitamin drops with or without fluoride
    - **Adults and children of all ages:** fluoride supplement
- Covered outpatient drugs that the manufacturer seeks to require as a condition of sale for which associated tests and monitoring services are purchased exclusively from the manufacturer or its designee
- Agents used for the treatment of sexual or erectile dysfunction

## 8.0 Common Reject Messages

Message	Explanation
<b>09: M/I Birth Date</b>	Select Health requires a valid date of birth for the cardholder ID to be submitted in order to verify eligibility and process claims. If the member's date of birth is submitted incorrectly, the pharmacy will receive the M/I Birth Date rejection. When received, the pharmacy should contact the Select Health Help Desk to verify the correct information and for assistance in processing.
<b>13: M/I Other Coverage Code</b>	The M/I Other Coverage Code error message may appear when a claim is being submitted to Select Health as the secondary payer and Select Health does not have record of other health insurance for the member. When received, the pharmacy should contact the Select Health Help Desk to verify the correct order of benefits information and for assistance in processing.
<b>40: Pharmacy Not Contracted with Plan on Date of Service</b>	Select Health requires an active contract for pharmacies to submit claims for payment at point of sale. When the Pharmacy Not Contracted with Plan on Date of Service error is received, the pharmacy should contact the Select Health Help Desk to verify their contract status.
<b>41: Submit Bill to Other Processor or Primary Payor</b>	The Submit Bill to Other Processor or Primary Payor error message may appear when a claim is being submitted to Select Health as the primary payer and Select Health records have other health insurance on file as the primary payor for the member. When received, the pharmacy should contact the Select Health Help Desk to verify the correct order of benefits information and for assistance in processing.
<b>52: Non-Matched Cardholder ID</b>	Select Health requires a valid cardholder ID to be submitted in order to verify eligibility and process claims. The ID number is the 9-digit subscriber ID number that can be found on the member's ID card. If the member's ID number or the member's date of birth is submitted incorrectly, the pharmacy will receive the Non-Matched Cardholder ID rejection. When received, the pharmacy should contact the Select Health Help Desk to verify the correct information and for assistance in processing.
<b>70: Product/Service Not Covered and MR: Product Not on Formulary</b>	<p>This error message may appear for a member with a formulary requirement. If this is the case, the online system will not return financial information and the prescription will not be reimbursed by Select Health.</p> <p>Select Health members have the following options should this rejection be received:</p> <ul style="list-style-type: none"> <li>• Consult with the prescribing physician to discuss formulary alternatives prior to having the prescription filled</li> <li>• Pay in full for the non-covered medication and discuss formulary alternatives for future fills (this is not reimbursable)</li> <li>• Pay in full for the non-covered medication</li> </ul> <p>Contact the Select Health Member Services line for assistance in determining prescription benefit coverage. Pharmacists may also contact the member's prescribing physician to discuss formulary alternatives and/or formulary exception requests, which can be initiated by the prescribing physician.</p> <p>Please note that if the member pays in full for the non-covered medication, Select Health does not guarantee that reimbursement will be made, either retroactively or for future fills.</p>

Message	Explanation
<b>71: Prescriber is Not Covered</b>	<p>There are several situations that could cause a Prescriber is Not Covered error. Below are the most common examples:</p> <ul style="list-style-type: none"> <li>• Select Health requires a valid NPI number for prescriber identification. Select Health relies on the pharmacy for submission of accurate information.</li> <li>• Some plans require that the prescribing physician participate in the Select Health physician network for a medication to be covered.</li> <li>• The prescriber may be sanctioned by the Office of Inspector General (OIG).</li> </ul>
<b>75: Prior Authorization Required</b>	<p>There are certain medications that Select Health requires prior authorization before the medication can be dispensed to the member. When this rejection is received, the pharmacy may contact the Select Health Help Desk to begin the prior authorization process. The Select Health Prescription Drug List (PDL) notates the medications that require prior authorization with a "(PA)" in the "Spec. Requirements" column. For the most up-to-date drug information, access the PDL through the Select Health website.</p>
<b>76: Plan Limitations Exceeded</b>	<p>The Plan Limitations Exceeded rejection could occur for a variety of reasons, including the most common:</p> <ul style="list-style-type: none"> <li>• <b>Over Quantity Limits:</b> <ul style="list-style-type: none"> <li>— This could be caused by a dose optimization issue which would require the prescribing physician's office to change to a different strength of the same medication.</li> <li>— Alternatively, the prescribing physician can send into Select Health a Letter of Medical Necessity (LMN) for review as originally prescribed.</li> <li>— As a final option, the pharmacy can resubmit the prescription for the amount Select Health will allow.</li> </ul> </li> <li>• <b>Cost Exceeds Maximum:</b> <ul style="list-style-type: none"> <li>— Select Health applies a max cost per prescription of \$1,000; in most instances when this reject is received for exceeding the max cost edit, the pharmacy can call the Select Health Help Desk for an override.</li> <li>— Compound medications have a different cost edit of \$75 per prescription; in many cases, a compound medication will require a LMN from the prescribing physician to obtain the necessary cost override.</li> <li>— <b>Over Day Supply Limits:</b> Select Health applies a max day supply that can vary by plan and by drug. If the pharmacy has questions if this rejection is received, please contact the Pharmacy Help Desk for assistance.</li> <li>— <b>Patient Age Exceeds Maximum Age Allowed for Drug:</b> Select Health applies age limitations to applicable medications depending on safety, efficacy, or specialized dosage form.</li> <li>— <b>Over Maximum Daily Dose:</b> Select Health may apply a maximum daily dose based on the U.S. Food and Drug Administration (FDA) approved labeling and other accepted drug compendia guidelines meeting minimum levels of evidence.</li> </ul> </li> </ul>
<b>79: Refill Too Soon</b>	<p>Select Health applies an edit for refilled medications that require the medication be 75% gone before a refill can be allowed, for most plans. For controlled substances the edit requires that the medication be 80% gone before a refill can be allowed. Contact the Select Health Pharmacy Help Desk for additional information or assistance processing.</p>

Message	Explanation
<b>88: DUR Reject Error</b>	<p>There are several situations that could cause a DUR Reject Error. The most common examples are:</p> <ul style="list-style-type: none"> <li>• <b>Opioid Care Coordination:</b> Select Health will give a soft rejection when prescriptions are written for more than 90 morphine milligram equivalents (MME) daily. For a Medicare or commercial member, the pharmacist must verify dosing and plan with the prescriber. After verification has taken place, the pharmacy can override the edit using a Submission Clarification Code of 07: Medically Necessary. For a Medicaid member the maximum restriction is 90 morphine milligram equivalents (MME) daily and cannot be overridden on the pharmacy side.</li> <li>• <b>Opioid High-Dosage Limits:</b> Select Health will reject claims when filling for a high-dose opioid, greater than 200 MME for most plans. For Medicaid members, Select Health will reject claims when filling for a high-dose opioid, greater than 90 MME. The patient or prescriber is required to send a prior authorization request to Select Health if they believe an exception should be granted for this restriction.</li> <li>• <b>Seven-Day Max Fill For Opioid Naïve Patients:</b> Select Health will only allow a maximum 7-day fill for any patient that is opioid naïve for their first fill. (For a Medicaid member, opioids prescribed by a dentist are limited to a maximum 3-day fill.)</li> <li>• <b>Concurrent Benzodiazepine and Opioid Therapy:</b> Select Health will give a soft rejection when a patient has overlapping days supplies of benzodiazepine and opioid medications. The pharmacist must verify dosing and plan with the prescriber. After verification has taken place, the pharmacy can override the edit using a submission clarification code of 07: Medically Necessary.</li> <li>• <b>Multiple Long-Acting Opioid Prescriptions:</b> Select Health will give a soft rejection when a patient attempts to fill more than one long-acting opioid medication with overlapping days supplies. The pharmacist must verify dosing and plan with the prescriber. After verification has taken place, the pharmacy can override the edit using a submission clarification code of 07: Medically Necessary.</li> </ul>
<b>569: Provide Notice: Medicare Prescription Drug Coverage and Your Rights</b>	<p>When a claim for a Medicare Part D drug is submitted to the Select Health Medicare plan and is not covered on the formulary or exceeds formulary limitations and is outside the Medicare Part D transition fill coverage period, the Provide Notice: Medicare Prescription Drug Coverage and Your Rights rejection will be sent. When this rejection is received and the member must leave the pharmacy without their prescription, the pharmacy is required to provide the member with the Member's Rights document.</p>
<b>608: Step Therapy, Alternate Drug Therapy Required Prior To Use of Submitted Product Service ID</b>	<p>Select Health applies Step Therapy edits to certain medications, which will require qualifying medication(s) before Select Health will cover the one that is rejecting. If those step therapy rules have not been met, the pharmacy will receive this rejection.</p>

## 9.0 Payment and Reconciliation Information

### 9.1 PAYMENT SCHEDULE

#### Select Health Commercial, Scripius PBM Products, and Select Health Community Care (Utah State Medicaid)

For reimbursement to the pharmacies, payment cycles are run every **two (2) weeks**. Checks will be disbursed within **fifteen (15) working days** of the end of the cycle and will be mailed to the pharmacy.

#### Select Health Medicare (Medicare Part D)

For reimbursement to the pharmacies for Medicare claims, Select Health will issue, mail, or otherwise transmit payment for all clean claims, submitted by network pharmacies (other than mail-order and long-term care pharmacies) within **fourteen (14) days** after the date the claim is received for an electronic claim or **thirty (30) days** after the date the claim is received for any other claim.

### 9.2 REMITTANCE REPORT

Each payment to the pharmacy will be accompanied by one copy of the Pharmacy Claims Reconciliation Report. This report will provide a detailed list of all claims submitted during the current cycle for each pharmacy and will provide totals for the reconciliation or the payment amount. This report will include all paid, rejected, and reversed claims for the current processing cycle. As an alternative format, the report can also be made available in 835 format, delivered via sFTP in place of the paper remittance report.

Additional copies of the Claims Reconciliation Summary Report may be obtained by request from the Select Health Pharmacy Help Desk. There will be a charge per additional copy requested. Questions regarding the payment cycle and remittance files should be directed to the Select Health Pharmacy Networks Team at [SHPharmacyContracting@Selecthealth.org](mailto:SHPharmacyContracting@Selecthealth.org).

### 9.3 ELECTRONIC FUNDS TRANSFER (EFT)

Pharmacies wishing to receive payments via Electronic Funds Transfer (EFT) may submit a request to the Select Health Pharmacy Networks Team by emailing [SHPharmacyContracting@Selecthealth.org](mailto:SHPharmacyContracting@Selecthealth.org).

Please note that pharmacies must receive their Remittance Report via 835 file format. No paper Remittance Report would be supplied to the pharmacy.

### 9.4 340B CLAIMS

Federal requirements dictate that a rebate or discount is required for all covered outpatient drugs for Medicaid plans. Select Health will collect all forfeited rebate amounts resulting from 340B Claims.

## 10.0 Select Health Medicare (Medicare Part D): Specific Information

### 10.1 PLAN SUMMARY

Select Health's Medicare plan is an MA-PD plan that covers parts of Utah, Idaho, and Nevada. The plan is committed to following Centers for Medicare and Medicaid Services (CMS) guidelines and ensuring access to necessary medications while working closely with the pharmacies to provide the best customer experience possible.

### 10.2 FRAUD, WASTE, AND ABUSE

It is expected that the provider agrees to adhere to the CMS Prescription Drug Benefit Manual, Chapter 9 – Part D Program to Control Fraud, Waste, and Abuse, and Part D Sponsors' policies and procedures, training and corrective action plans related to the program. Cooperation with the Part D Plan Sponsor includes providing copies of prescriptions, signature logs, and other related documentation to assist in any investigations.

### 10.3 TRAINING

To be considered a pharmacy in compliance with Medicare Part D rules and regulations, pharmacies must agree under CMS guidelines to provide ongoing Medicare Part D training and documentation to its staff.

As part of the audit process with Select Health, copies of this training and record of the staff receiving the training may be required to be produced, as needed.

### 10.4 PHARMACY CERTIFICATION FOR PART D

To process Medicare Part D claims for Select Health, pharmacies are required to sign a specific Medicare contract addendum. If not signed, any Medicare claims processed to Select Health will be rejected at POS.

### 10.5 FEDERAL HEALTH CARE PROGRAMS PARTICIPATION EXCLUSION

Veterans' Administration benefits are separate and distinct from benefits provided under Medicare Part D, per federal regulations. By law, VA cannot bill Medicare. A beneficiary may not use both VA prescription drug benefits and Part D benefits for a single prescription.

### 10.6 GENERAL PROCEDURES FOR ACKNOWLEDGMENT LETTERS

To be in compliance with CMS requirements, if a member should present a Part D acknowledgment letter in place of an ID card, the pharmacy should honor that letter as sufficient eligibility to process a claim to Select Health for their Medicare Part D benefit. If the presented letter does not contain sufficient information to process a claim to Select Health, please contact the Select Health Medicare Part D Help Desk for assistance in processing.

### 10.7 FORMULARY TRANSITION FILL PLAN

In accordance to the transition plan requirements from CMS, Select Health will offer short-term coverage for Part D benefits to members that are new to the plan. During this transition period, a member can receive an initial fill of an ongoing medication even if it is not covered under the new Medicare Part D plan (including if it requires prior authorization or step therapy). It is assumed that during this transition period,

the member will be working with their physician to identify alternative equivalent medications that are covered under the plan.

#### 10.8 LONG-TERM CARE (LTC) FACILITIES

For long-term care facilities to process Medicare Part D claims to Select Health, the pharmacy is required to sign a specific LTC Medicare contract addendum. If not signed, any Medicare claims processed to Select Health will be rejected at POS.

#### 10.9 HOME INFUSION THERAPY

For a home infusion pharmacy to process Medicare Part D claims to Select Health, the pharmacy must sign a specific home infusion Medicare contract addendum. If not signed, any Medicare claims processed to Select Health will be rejected at POS.

#### 10.10 MEDICARE SERVICE AREA

The Select Health Medicare Advantage program covers the following service areas:

- **Utah Counties:** Box Elder, Cache, Davis, Franklin (ID), Garfield, Iron, Juab, Millard, Morgan, Piute, Rich, Salt Lake, Sanpete, Sevier, Summit, Tooele, Utah, Washington, Wayne, Weber
- **Idaho Counties:** Ada, Adams, Boise, Canyon, Cassia, Elmore, Gem, Gooding, Jerome, Minidoka, Owyhee, Payette, Valley, Twin Falls, Washington
- **Nevada Counties:** Clark, Nye
- **Colorado Counties:** Adams, Arapahoe, Broomfield, Boulder, Clear Creek, Delta, Denver, Douglas, Elbert, El Paso, Gilpin, Jefferson, Mesa, Park, Pueblo, Teller

## 11.0 Select Health Community Care (Medicaid): Specific Information

### 11.1 TAMPER-RESISTANT PRESCRIPTION PAD REQUIREMENTS

Pharmacies that contract to provide services to Select Health Community Care members must also be a participating provider with Utah Medicaid. See the [Utah State Medicaid Provider Manual](#) for more information.

All written prescriptions for drugs under the Medicaid program must be on tamper-resistant prescription pads.

Compliance with all federal and state laws regarding the types of documentation and how prescriptions are filled must be maintained.

To be considered “tamper resistant,” Medicaid written prescriptions must contain one or more industry-recognized features designed to **prevent**:

1. Unauthorized copying of a completed or blank prescription form;
2. The erasure or modification of information written on the prescription by the prescriber; and
3. The use of counterfeit prescription forms.

### 11.2 GENERIC PREPARATIONS

Medicaid requires use of generic drugs, unless the physician obtains a prior approval for the brand name drug. However, Medicaid does not pay for generic house-brand or store-brand products unless the manufacturer has entered into a rebate agreement for each specific NDC number. Manufacturers that have not entered the federal rebate program will not have their products covered. This includes almost all ‘house-brand’ and ‘store-brand’ products.

### 11.3 MEDICATIONS PROVIDED IN A MEDICAL EMERGENCY

Some medications that require preauthorization may be provided in a medical emergency before authorization is obtained from Select Health. When a medical emergency occurs, and a medication requiring a preauthorization is required, pharmacy providers may provide up to a 72-hour supply of the medication. When contacted, Medicaid will issue an authorization for the 72-hour supply of the medication on the next business day. All subsequent quantities must meet all plan requirements for the medication. It is the responsibility of the medication prescriber to provide the necessary documentation.

### 11.4 RESTRICTION PROGRAM

Select Health Community Care enrollees who inappropriately utilize health care services may be enrolled in the Restriction Program. Enrollees are identified for enrollment through:

- Periodic review of patient profiles to identify inappropriate over-utilization of medical providers, urgent care centers, specialists, medications, and/or pharmacies.
- Verbal and written reports of inappropriate use of services generated by one or more health care providers regarding the member. These reports are verified through a review of the patient’s claim history by Medicaid staff and medical consultants.
- Referral from Medicaid staff.

Enrollees in the Restriction Program are informed of the reasons for enrollment, counseled in the appropriate use of health care services, and assigned a Primary Care Provider and a pharmacy. In addition to the Select Health Community Care card, enrollees will receive a Utah Medicaid card, which identifies the enrollee as “RESTRICTED” below the eligibility information and above the member’s name. These clients must receive all health care services through either the assigned primary care provider or receive a referral from this primary care to see any other provider. All pharmacy services must be received from the assigned pharmacy. Select Health will only pay claims for services rendered by providers:

- Listed on the card; and
- From whom members were appropriately referred.

Emergency services are not restricted to assigned providers.
