

# Easily Identify Care and Coding Gaps

With SelectHealth's free IllumiCare Gaps tool, you can quickly check SelectHealth patients for care or HCC coding gaps. The benefits include:

- Know what specific gaps exist for each patient and what conditions need to be addressed.
- Checks and updates are done seamlessly when viewing a patient in any EMR.
- No data is exchanged between EMR and SelectHealth.
- Fully supported by IllumiCare—No additional IT resources are needed.
- Takes less than 20 minutes to install at no cost to you.
