

## SelectHealth Adds University of Utah Facilities and Providers to its Medicare Advantage® Network

---

To better meet the growing need for healthcare services for Medicare beneficiaries in Utah, SelectHealth and University of Utah Health recently announced an agreement that SelectHealth will add access to University of Utah hospitals, clinics, and providers to its Medicare Advantage network. Effective **July 1, 2022**, this agreement creates access to a full range of services and facilities throughout the University of Utah Health system.

The joint effort by SelectHealth and University of Utah Health will increase the number of options for Medicare Advantage services and open access to a wide variety of providers and facilities including, but not limited to:

- > The University of Utah hospital
- > Moran Eye Center
- > Huntsman Cancer Institute
- > University Orthopedic Center
- > Community clinics including the South Jordan, Sugar House, and Farmington Health Centers

“To achieve our mission of helping people live the healthiest lives possible and best serve our senior community, it’s important our Medicare Advantage members get timely, appropriate care in a manner most convenient to them,” said Marti Lolli, SelectHealth President and CEO. “We believe this additional access to providers at University of Utah facilities will improve member satisfaction and allow many more members to see the primary care provider of their choice or get specialty care from locations closest to their home.”

The joint effort by SelectHealth and University of Utah Health will increase the number of options for Medicare Advantage services and open access to a wide variety of providers and facilities including the University of Utah hospital, Moran Eye Center, Huntsman Cancer Institute, University Orthopedic Center, and community clinics including the South Jordan, Sugar House, and Farmington Health Centers. SelectHealth Medicare Advantage members will now have more options to meet their healthcare needs, including all professional providers, from preventive and primary care to specialty and emergency services.
