

Online tools to find care.

Finding an in-network doctor is easy.

Select Health offers a variety of electronic options to search for a new provider. Here is a quick overview of how to do this.

Mobile Option.

The Select Health mobile app for Apple or Android devices is the quickest way to find a doctor. Simply download the app, login, and click on *Find Care*. Then search for a doctor or specialist.

Desktop Option.

To find a doctor on a desktop or laptop computer, visit selecthealth.org/find-a-doctor and enter the name of the provider. You can also search with any combination of information. If needed, click *Show Advanced Search Options* for more search criteria.
