IllumiCare Gaps tool.

Health

Easily identify care and coding gaps.

With SelectHealth's free IllumiCare Gaps tool, you can quickly check SelectHealth patients for care or HCC coding gaps. The benefits include:

- Know what specific gaps exist for each patient and what conditions need to be addressed.
- Checks and updates are done seamlessly when viewing a patient in any EMR.
- No data is exchanged between EMR and SelectHealth.
- Fully supported by IllumiCare—No additional IT resources are needed.
- Takes less than 20 minutes to install at no cost to you.
