

Prescription drug list.

This “drug list” is a summary of the most commonly prescribed drugs that your insurance plan covers. **PRO TIP:** If you log in to your member account, you can use our drug search tool to view all the drugs your plan covers (i.e., the complete “formulary”), and see the costs of different medications.

Drug costs

Your formulary is divided into tiers. In most cases, drugs on lower tiers will cost you less. Additionally, there are preventive medications, that vary by age and gender (e.g., contraception for women or fluoride tablets for children), that may be available to you at no-out-of-pocket cost.

Some maintenance medications that you use regularly for chronic conditions such as asthma or diabetes may have additional coverage that makes them less expensive for you. However, coverage varies by plan and the cost-sharing amounts you pay for different drug tiers or categories of medications are shown on your Member Payment Summary (MPS) or our online search tool.

You can also call Pharmacy Services to find out how much a drug costs, whether it is covered by your insurance, and whether preauthorization or other steps are required for coverage. Select Health members call **800-538-5038**.

The formulary is regularly updated

The contents of the formulary are reviewed each month by our team of doctors and pharmacists. This team reviews and evaluates the clinical efficacy, safety, and cost effectiveness of all medications and may remove drugs from, or add drugs to, this list. Please note that the inclusion of a drug in the formulary does not guarantee that a healthcare provider will prescribe that drug for you.

Noncovered drug exceptions

For drugs that are not covered, you, your physician, or your pharmacy may request coverage based on medical necessity. Requests are granted on a case-by-case basis. Use the exception form found on our website.

LEGEND

(PA) Preauthorization

Coverage of drugs is based on medical necessity. For certain drugs, you will need preauthorization from us; otherwise, you will be responsible to pay the drug's full retail price.

(M) Maintenance drug

These drugs may allow you to get a 90-day supply, for your convenience.

(ST) Step Therapy

Drugs that require step therapy are covered only after you have tried an alternative therapy and it didn't work (i.e., the drug didn't alleviate your symptoms or caused adverse reactions). Step therapy most often applies to brand-name drugs.

(QL) Quantity Limits

Quantity limitations apply to certain drugs (e.g., opioids). Preauthorization is required if the medication exceeds the plan limits.

(AGE) Age limit

A minimum or maximum age limit requirement must be met for coverage.

Select Health and SelectHealth Benefit Assurance Company, Inc. (doing business as “Scripius”) obey federal civil rights laws.
