# SNACKING **SMART**

While snacking can be a great way to boost your energy and an excellent way to add additional fruits, vegetables, and healthy protein to your diet, it is important to choose snacks wisely.

The first step to snacking smart is to stay away from the vending machine and candy jars. Instead, choose foods that are nutrient-rich. Try to include foods from at least two food groups.

The second step is to keep your portions under control. Divide snacks into single-serving containers to prevent overeating.

Last, snack only when you are hungry. Avoid eating if you are bored or stressed. Instead, take a quick walk or talk through your stress with a friend.

# HEATLHY VS. UNHEALTHY SNACK CHOICES

Empty calories: 213 Total calories: 376 Solid fats: 87 calories Added sugars: 126 calories

Sodium: 611 mg

#### Fritos and Ho Hos Cupcake

Empty calories: 75 Total calories: 305 Solid fats: 24 calories Added sugars: 51 calories Sodium: 328 ma

Snickers bar and **Mountain Dew** 

Empty calories: 264 Total calories: 432 Solid fats: 23 calories Added sugars: 241 calories

Sodium: 177 mg

### Gardetto's snack mix and Coke vs. Fat-free string cheese and apple

Empty calories: 0 Total calories: 111 Solid fats: O calories Added sugars: O calories

Sodium: 209 mg

#### vs. Low-fat cottage cheese and pineapple

Empty calories: 18 Total calories: 245 Solid fats: 18 calories Added sugars: O calories

Sodium: 31 mg

#### vs. Reduced-fat peanut butter and whole wheat Triscuit crackers

Empty calories: 3 Total calories: 111 Solid fats: O calories Added sugars: 3 calories

Sodium: 121 mg

## OTHER SMART SNACK IDEAS
